John Biddulph - That's me!

I'm a confident and outgoing person who loves making the most of life. I live in Worthing, West Sussex, with my partner Jess and our 7-year-old son, Albert. I have a passion for classic cars and have owned over 10 classic Minis. Creativity is a big part of who I am—I enjoy photography and design. I also like staying active through cycling, swimming, and walking the dog (though not all at once!). In my free time, I enjoy the usual pleasures—going to gigs, dining out, and watching films with friends.
